**Frontend**                    React, Tailwind CSS ,Styled Components,SCSS, API Integration

**Developer Tools**            Git, Postman, Redux

**Soft Skills**                    Collaboration, Communication, Problem Solving, Adaptability

## EXPERIENCE

---

**React Developer**

Sept 2024 – Present

*BuiltInSoft*

Rahim Yar Khan, Pakistan

- Architected the system and implemented backend APIs using Node.js, Express, PHP , and MySQL to support scalable office management operations.
- Integrated Google APIs to manage Google Sheets access, including reading and writing data dynamically.
- Converted a complete Figma design into a fully responsive, pixel-perfect frontend using React.js, implementing reusable components, state management, and modern React best practices.
- 

**Frontend Intern**

July2025 To Onward

*BuiltInSoft*

Rahim Yar Khan, Pakistan

- Developed responsive web interfaces using HTML, CSS, JavaScript, and React.
- Translated design mock ups into pixel-perfect, responsive pages using modern frontend technologies.

- Collaborated closely with back-end developers to integrate APIs effectively and ensure seamless user experiences.

## PROJECTS

---

### Payroll System Office Management Web.

- Built a full-stack Payroll & Office Management Web App with separate dashboards for Admin, Manager, and User roles, featuring secure login/signup authentication.
- Developed the frontend using HTML, CSS, JavaScript and implemented the including real-time computation.

### Car Rental Web

- Converted a high-fidelity Figma design into a fully responsive and interactive car rental website using React.js, HTML, CSS, and JavaScript.
- Implemented dynamic features such as car listing grids, booking forms, search filters, sliders, and mobile responsiveness, ensuring a pixel-perfect match to the design.
- Integrated interactive UI elements including animations, image galleries, and booking interactions for a smooth and engaging user experience.
